**Totally Tubular™ Control Arms**

**TOTALLY TUBULAR™ CONTROL ARMS FOR 1978-87 G-BODY**

Check out the newest addition to our Totally Tubular Control Arm line...now available for G-body vehicles. Like our other tubular control arms, the lower control arms feature a helical stamped coil spring mount, which secures the coil spring into the lower control arm. The coil mount has been improved to make installation even easier. The lower shock mount is incorporated into the stamped coil plate. This stamping is welded around its entire perimeter. All arms that contain cross shafts are preassembled with the cross shafts and pivot sleeves and have a safety feature that captures both sides of the bushing. This allows full control and virtually no flex on the control arm when cornering. Available in black or silver powdercoat.

**Upper Arms - starting at $399 | Lower Arms - starting at $449**

*Shown with optional upgraded rotors and power rack.*

All orders over $350 will receive a FREE Limited Edition T-shirt!
PRO-TOURING KITS FOR 1968-72 CHEVELLES

CPP’s new Pro-Touring Kits provide the ultimate performance for an affordable price. Our kits are made in the USA with the quality you have come to expect from Classic Performance Products. Included with each kit is a front and rear sway bar, combined with the lowered stance and performance enhancements of either the lowered coil springs and gas shock combo in the Stage I kits or the adjustable coil over package in the Stage II kits would be great on their own. When adding CPP’s award-winning MCPV-1 master cylinder; along with our front and rear 11” or 13” brake kit, you have a ‘tried and true’ Pro-Touring package in the Stage III and Stage IV kits. Add a 500 Series™ steering box (shown below) to get even more steering performance out of your classic muscle. Note: Requires disc brake spindles.

STAGE 4 (SHOWN) - STARTING AT $3,599

500 Series™ STEERING BOX

CPP carries a host of power steering boxes. Our 500 Series™ is late model steering technology with a 14:1 ratio and all NEW components. These boxes bolt directly to your frame without any need for additional brackets or adapters. Original replacement power steering boxes are available in standard and quick ratios.

STAGE 4 - STARTING AT $3,599

UPGRADE TO REAR COILOVERS FOR $229

500 Series™ COMPLETE WHEEL KIT - STARTING AT $649

C5 SPINDLE WHEEL BRAKE KIT

Our C5 spindles for Chevelles are a direct bolt-on and use original steering arms. Utilizes C5 hub & bearings, as well as C5 brakes or aftermarket alternatives. Our tall spindle provides improved geometry. Black or red calipers available. Note: Requires 17” or larger wheels.

500 Series™ STEERING BOX

POWERFUL AND COMPACT, MODERN UPGRADE FOR MANUAL OR VACUUM-ASSISTED BRAKES. HIGH QUALITY, DIRECT BOLT-IN UNIT PUTS OUT AN AMAZING 1800 PSI. STREET BEAST™ COMPLETE KIT INCLUDES: UNIT WITH STEEL FIREWALL MOUNTING BRACKET, ALUMINUM CORVETTE-STYLE MASTER CYLINDER, SIDE MOUNTED PROP & STOP BLOCK KIT, RUBBER PRESSURE AND RETURN HOSES.

500 Series™ COMPETITIVE SYSTEMS

A full line of new ready-built rearends are available with the same high-quality parts used in Currie custom-built rearends, but at “w” prices.
